

Enter Client Side ID (Mandatory Step)

Before a resource can create or submit their timesheet, the system requires a **Client Side ID**. This step ensures that the resource is correctly mapped to the client project.

1.1 System Prompt for Client Side ID

When you open the **Timesheet** module for the first time, a pop-up window appears asking you to enter the Client Side ID.

The screenshot shows the 'My Timesheets' module interface. A pop-up window is displayed in the center, titled 'Please provide Client Side ID to continue.' The pop-up contains two input fields: '*Project' with the value 'DEV-TNM-MEP-happy1' and '*Client Side ID' which is empty. Below these fields are 'Set' and 'Cancel' buttons. The background interface shows tabs for 'My Timesheets', 'Team Timesheets', and 'All Timesheets', along with buttons for 'Create New Timesheet' and 'Bulk Final Document Upload'. At the bottom, there are radio buttons for '*Timesheet Application For' with options 'Self', 'As Shadow', and 'Team member'. A link '<<<< Click To Read Rules' is visible in the bottom right corner.

1.2 Enter the Client Side ID

- If the **client has provided you an official ID**, enter that ID in the text box.
- If **no Client Side ID is provided to you**, enter: **NA(EmployeeID)**
Example: NA-(250209)

This allows the system to proceed even when the client has not assigned a specific ID.

Please provide Client Side ID to continue.

*Project: DEV-TNM-MEP-happy1

*Client Side ID: NA(A-250293)

Set Cancel

*Timesheet Application For

☐ Self ☐ As Shadow ☐ Team member

1.3 Save the Client Side ID

- Click the **Save** button to submit the details.
- A confirmation pop-up will appear saying “**Saved Successfully!**”
- Click **OK** to continue to the next step of timesheet creation.

Saved Successfully!

OK

CREATE TIMESHEET

*Timesheet Application For

☐ Self ☐ As Shadow ☐ Team member

To update a client side id:

- Click the blue button next to the Client Side ID field on the timesheet to open the “Update Client Side ID” form.
- Enter the new Client Side ID in the form and click the Save button to submit the updated details.
- A confirmation pop-up will appear saying “Saved Successfully!”.
- The updated Client Side ID will be auto-populated
