

Timesheet Filling Guide for TNM Resources

Purpose

The purpose of this document is to provide TNM resources with a clear, step-by-step guide on how to fill and submit their timesheets in the iShine portal. Each step is accompanied by screenshots to help users understand the flow and avoid errors during submission.

Step 1: Enter Client Side ID (Mandatory Step)

Before a resource can create or submit their timesheet, the system requires a **Client Side ID**. This step ensures that the resource is correctly mapped to the client project.

1.1 System Prompt for Client Side ID

When you open the **Timesheet** module for the first time, a pop-up window appears asking you to enter the Client Side ID.

1.2 Enter the Client Side ID

- If the **client has provided you an official ID**, enter that ID in the text box.
- If **no Client Side ID is provided to you**, enter: **NA(EmployeeID)**
Example: NA-(250209)

This allows the system to proceed even when the client has not assigned a specific ID.

1.3 Save the Client Side ID

- Click the **Save** button to submit the details.
- A confirmation pop-up will appear saying **"Saved Successfully!"**
- Click **OK** to continue to the next step of timesheet creation.

Step 2: Client DSR Approval Status —

Case 1: Not Filled

After entering the Client Side ID, the next mandatory field is **Client DSR Approval Status**. In this step, the resource must select the appropriate status based on their client-side DSR (Daily Status Report) submission.

2.1 Selecting “Not Filled”

If the resource selects **Not Filled** from the dropdown, the system triggers a warning pop-up.

2.2 System Warning for “Not Filled”

When **Not Filled** is chosen, the system shows the following message:

“Please ensure to fill the Client Side Attendance within two days to proceed with timesheet filling or you will be marked as defaulter.”

This reminder ensures compliance with client-side reporting requirements.

- The resource must complete the DSR/attendance on the client’s system within two days.
- Failure to do so may result in being tagged as a **defaulter**.

Client DSR Approval Status

Not Filled

<<<< Click To Read Rules

Step 2: Client DSR Approval Status —

Case 2: Filled

When the resource has completed their Client-Side DSR but it has **not yet been approved**, they must select the **Filled** option. This indicates that the DSR submission is done and allows the user to continue with the timesheet entry process.

2.1 Selecting “Filled”

In the dropdown under **Client DSR Approval Status**, choose **Filled**.

The screenshot shows a web application interface for submitting a Client DSR. The top navigation bar includes a user profile icon and the name 'Shaheel'. The main form is divided into several sections:

- Self / As Shadow / Team member**: Radio buttons for selection.
- *Day Type**: A dropdown menu currently set to 'Working'.
- *Date**: A date field showing '12/11/2025'.
- Night Shift**: A checkbox that is currently unchecked.
- *Project**: A dropdown menu showing 'DEV-TNM-MEP-happy1'.
- Client Side ID**: A text field containing 'NA(A-250293)'.
- Client DSR Approval Status**: A dropdown menu currently set to 'Filled'.
- *ApMoSys**: A section for uploading a 'Filled Attendance Proof' with a 'Choose file' button and a 'No file chosen' status.
- *In Time** and ***Out Time**: Time selection fields for the ApMoSys section.
- Total Working Hours**: A text input field for the ApMoSys section.
- Same as ApMoSys In-time and Out-time**: A checkbox that is currently unchecked.
- *Client Side**: A section with a note '(Ensure that the Client Side in-time and out-time align with the timings in the Client Side Attendance proof)'. It includes 'In Time' and 'Out Time' fields and a 'Total Working Hours' field.

Once selected, the full timesheet entry form expands and becomes available.

2.2 Upload Attendance Proof

When “Filled” is selected, the system requires the resource to upload the **Client Attendance Proof**.

- Click **Choose File**
- Upload the screenshot or document that shows your client attendance/DSR submission.

Choose file No file chosen

*In Time *Out Time Total Working Hours

☐ Same as ApMoSys In-time and Out-time

*Client Side (Ensure that the Client Side in-time and out-time align with the timings in the Client Side Attendance proof)

*In Time *Out Time Total Working Hours

Activities

*Client Name *Client Location *Team Name

*Activity Description *Time (hrs)

Create Timesheet

2.3 Enter ApMoSys In-Time and Out-Time

Enter your **ApMoSys in-time and out-time** for the selected working day.

- Use the hour and minute dropdowns.
- The system will auto-calculate the **Total Working Hours**.

2.4 Enter Client-Side In-Time and Out-Time

Below the ApMoSys time section, fill the **Client-Side in-time and out-time**.

Client Side timings must match the timings shown in your client attendance proof.
This ensures alignment between internal and client systems.

Create Timesheet

2.5 Add Daily Activities

Scroll down to the *Activities* section and fill the fields:

- **Client Name**
- **Client Location**
- **Team Name** (auto-filled for most projects)
- **Activity** – e.g., Bug fixing, Development, Analysis, etc.
- **Description** – Provide a brief description of the work completed
- **Time (hrs)** – Time spent on that activity

If multiple activities were performed, click **+** to add additional rows.

2.6 Submit the Timesheet

Once all details are filled:

- Click **Create Timesheet**

A confirmation message appears:

“Timesheet added successfully.”

Click **OK** to proceed.

Step 2: Client DSR Approval Status —

Case 3: Approved

When the client has **reviewed and approved** the submitted DSR, the resource must select the **Approved** option.

This indicates that both the submission and approval processes are complete on the client side.

2.1 Selecting “Approved”

From the **Client DSR Approval Status** dropdown, select **Approved**.

The screenshot shows a web application interface for Client DSR Approval Status. The form is divided into several sections. At the top, there are three main fields: *Project (DEV-TNM-MEP-happy1), Client Side ID (NA(A-250293)), and Client DSR Approval Status (Approved). Below these, there are two sections for *ApMoSys. The first section, *Filled Attendance Proof, has a 'Choose file' button and a 'No file chosen' status. The second section, *Approved Attendance Proof, also has a 'Choose file' button and a 'No file chosen' status. Below these, there are two sections for *In Time and *Out Time, each with a dropdown menu and a 'Total Working Hours' field. The first section has a checkbox for 'Same as ApMoSys In-time and Out-time'. The second section has a checkbox for 'Client Side (Ensure that the Client Side in-time and out-time align with the timings in the Client Side Attendance proof)'. At the bottom, there are three fields: *Client Name, *Client Location, and *Team Name. A blue circular button with a white icon is located at the bottom right of the form.

2.2 Upload Approved Attendance Proof

When **Approved** is selected, the system enables an additional upload field:

- **Approved Attendance Proof**

This document acts as confirmation that the client has verified and approved your DSR.

You must upload:

- Client-side approved DSR screenshot, OR
- Approved attendance sheet provided by the client

This upload is mandatory when “Approved” is selected.

2.3 Remaining Process

All other fields and steps remain **exactly the same as the Filled case**, including:

- Uploading the ApMoSys attendance proof
- Entering ApMoSys and Client in/out timings
- Filling activity details
- Submitting the timesheet

No additional validations or pop-ups appear for this option.

Bulk Final Document Upload (For Monthly or Non-DSR Clients)

Some client projects do not follow a day-wise DSR submission process.

In such cases, resources must upload a **single consolidated document** at the end of the cycle.

This could be in the form of an Excel sheet, a PDF, or any approved attendance tracker.

The **Bulk Final Document Upload** option allows resources to upload the entire month's client attendance/approval in one go.

3.1 When to Use Bulk Final Document Upload

Resources should use this feature in the following scenarios:

Scenario A: Client Does Not Have a DSR System

If the client does not maintain a formal DSR or attendance portal, the resource must:

1. Maintain daily work/attendance in an **Excel sheet**.
2. Get the Excel sheet **approved by the immediate client-side superior**.
3. Get the same sheet approved by the **ApMoSys RM**.
4. Upload the final approved document here.

This ensures the month's work is officially recorded and verified.

Scenario B: Client Approves Only at the End of the Month

Some clients follow a month-end approval cycle.

In such cases, the resource needs to:

1. Collect all daily/weekly attendance/DSR records.
2. Obtain **final monthly approval** from the client.
3. Upload the consolidated **PDF** or **Excel** file in this section.

This is especially useful when client-side approvals cannot be captured daily.

3.2 Accessing Bulk Final Document Upload

On the **My Timesheets** page, click the tab:

Bulk Final Document Upload

3.3 Filling the Bulk Upload Details

Once the page opens:

1. Select your **Project** from the dropdown.
2. Enter the **From Date** and **To Date** (period for which you are submitting the bulk attendance).
3. Upload the approved attendance document under **Bulk Approval Proof**.

Accepted formats:

- Excel
- PDF
- Image (if client approval is shared as a screenshot)

3.4 Submitting the Bulk Upload

- After selecting the project, date range, and attaching the approval proof, click **Upload**.
- The uploaded document will be used for final timesheet verification and approval by ApMoSys.
