

Case: No Client VMS/DSR Approval System

Overview

Resources will:

1. Fill daily timesheets in iShine.
2. **Maintain a parallel attendance Excel sheet.**
3. Since no client portal approval exists, **client approval is obtained only at month-end** via email/PDF.
4. Resource submits this approval in **Bulk Final Document Upload** for project closure.
5. RM/Manager validates and approves the month.

Step-by-Step Process (Resource → Client → RM)

Step 1 — Daily Activity: Fill iShine Timesheet

Every day, the resource must:

- Go to iShine → My Timesheets → Create Timesheet
- Select Date & Day Type
- Enter **Client Side ID**
- Set Client DSR/VMS Status = Filled
- Enter ApMoSys In/Out times
- Enter Client In/Out times
- Add detailed work activity description

Step 2 — Maintain a Parallel Excel Attendance Sheet

Resource must fill the Excel in the **same tabular** format daily:

- Date
- Day
- Attendance Status
- In-Time
- Out-Time

This Excel will later be shared with the client for **month-end approval**.

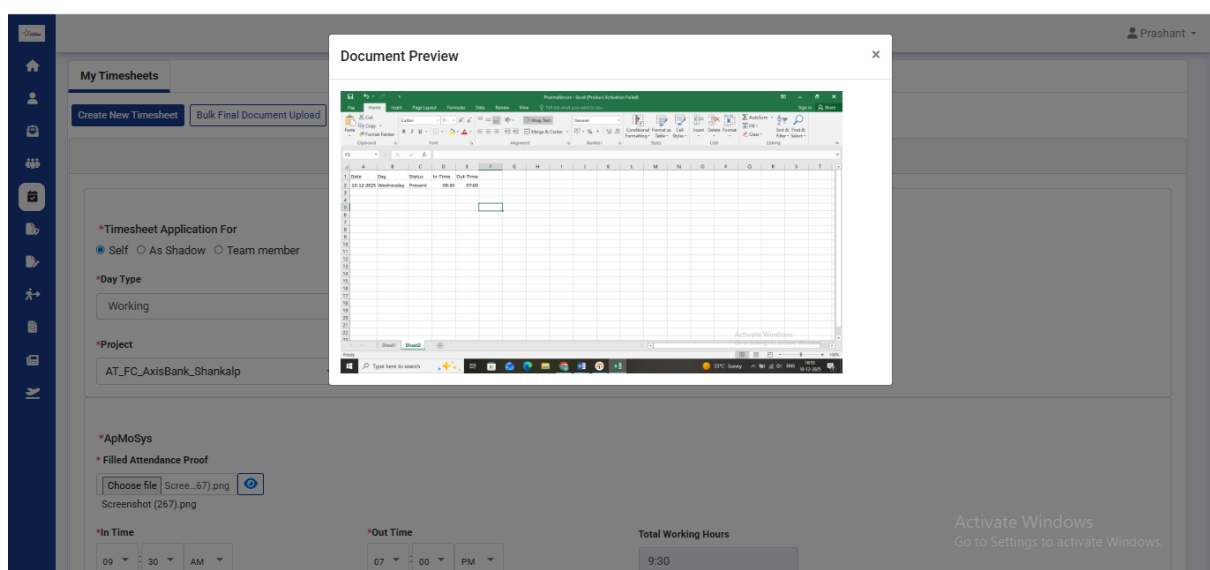

Step 3 — Continue Daily Updates Until Month-End

Since the client has **no VMS or daily approval workflow**, resources won't receive approval until the end of the month.

They continue filling:

- iShine timesheets (daily)
- Attendance Excel sheet (daily)

Step 4 — Month-End: Send Attendance to Client Manager

At month end, the resource:

1. Compiles the full **attendance Excel sheet** for the month.
2. Sends an email to the **Client Manager**:
 - Attach the Excel sheet
 - Request monthly attendance approval

Once approved, the resource will receive:

- Email approval or
- **Signed/approved Excel**

This approved mail must be **saved as PDF** or **screenshot**.
